

## NOAH'S ARK HAS A CLEVER RIVAL

Big Steamship Carries a Great Number of Animals to the Fair.

Special to The Tribune.

ST. LOUIS, April 10.—Noah's ark has a modern rival in the steamship Belgravia, which has just landed in New York with a cargo of wild animals for the World's fair. It is the largest collection of animals loaded on any craft since Noah took his collection two by two into the ark.

The Belgravia's animal cargo is valued at \$300,000. It comprises beasts and birds from every continent, and includes specimens from every clime. There are polar bears from the Arctic, horses from the temperate zones, and lions, tigers, elephants, monkeys and many other beasts from the tropics.

The animals are outnumbered by the passengers aboard the Belgravia. This motley collection of creatures of the forests and plains make a most interesting list of World's fair attractions. There were 661 animals on this ship, among them being eighty horses, thirty ponies, sixty elephants, fifty-four camels, twenty monkeys, two tigers, two lions, two bears, two zebras, two horses, four black panthers, two wild boars, three educated pigs, three vultures, two giant horned goats, three sandal deer, four fat sheep, five leopards, three chitahs, two tigers, nine polar bears, three giraffes, two llamas, three musk oxen, one water buffalo, two striped hyenas, two spotted hyenas, three horned yaks, two wart hogs, one sacred bull and baby elephant, one baby hippopotamus, one rhinoceros, forty-five monkeys, seven chimpanzees, eight baboons, sixteen dogs, one cat, one snake, one crocodile, one python, twenty-eight serpents and vipers, twelve educated geese, thirty-five trained doves, one crane, one crane, one pheasant, and birds of many kinds and many animals not enumerated in the above.

Among the passengers is a \$10,000 beauty, that being its cash value. The elephants and camels will be used in the parade, and many of the other beasts and birds will be exhibited at the fair.

These animals were shipped from Hamburg for New York, and were accompanied by more than 100 attendants. The polar bear had to be fed on fish and oil, the giraffes on leaves and grasses, the elephants, camels and horses required hay, while the lions, tigers, hyenas, leopards and other carnivorous animals had to have fresh meat. Live food was given to the snakes and various kinds of food to the many varieties of birds.

SAINTS AND ANGELS SOON TO BE UNITED

Special to The Tribune.

CALIENTES, Nev., April 10.—H. M. McCartney, first assistant engineer of the San Pedro, Los Angeles & Salt Lake railroad, spent two days in Calientes and on the line between this camp and the front, arranging for expediting the advance work of construction. General Foreman William McDermott accompanied Mr. McCartney to Moapa, and an examination of the latest work at the front proved satisfactory. A "shoo fly" track is now being laid around the mountain side on the east side of the Muddy river, and it will be used for conveying material for track and bridge buildings until the cut through the mountain is completed.

The construction department is also completing several schemes for a temporary bridging of the Muddy river, whereby material for advance tracklaying may be hauled to the terminus of the nearly completed contract of the Utah Construction Company, which is now grading from the Muddy westward to the Las Vegas ranch.

The railroad and bridge are close on the heels of the Utah Construction company, and it is now believed that the road will be completed to the Las Vegas ranch within the next sixty days.

Of the 30 miles of incomplete road between Daggett and the Muddy river, grading has been completed to a point about thirty miles southwest from Calientes, and from Daggett, thirty-five miles eastward, and track laid that distance. This gives a total trackage of about 130 miles out of the 30, leaving but 14 miles in the gap before the track is open for through traffic from Salt Lake City to Las Vegas via the Santa Fe from Daggett.

Grading operations are being rushed from both termini, and it is expected that the intervening desert land can be successfully overcome there is no doubt but that the city of the future will be taken from the desert by the rails long before the New Year is ushered in.

Samuel Newhouse, who visited Calientes this week in company with General Manager Wells, and interested himself in the mining outlook along the line from Calientes southwestward, says that southern Nevada is ripe for the biggest kind of a mining boom.

He says that the rich deposits of silver and copper are being discovered in the region.

Every day brings prospectors to Calientes, and the hills north and west of the camp echo with the shouts being put in by these busy Argonauts of the West. The Bambergers tunnel is now in fifty feet on a fine body of free gold ore. Drifting will be continued throughout the summer.

Samples taken from the San Pedro claim place to camp show lead, zinc, silver and galena, with over four feet of talc on the footwall.

Locators twenty miles south of camp brought in silver-copper ore assaying 16.7 per cent copper on an average, and 65 pounds in silver from a ton of ore. From a fourteen-inch ledge in white quartz and time. Forty claims have been located in this district within the last ten days. The mines lie within five miles of the railroad, and are reached by a first-class wagon road from Kernal's ranch on the line of the San Pedro road. East of this ranch several rich finds have been made in the same class of ore, averaging \$2 to the ton.

Calientes is fast attaining notoriety as a health resort, a number of invalids from the frozen East arriving daily and enjoying the delightful climate and the sulphur bath at the natural bath cave within the townsite.

An average of one and a half miles of track rail is being shipped to the front from Calientes daily.

France Must Inform Great Britain.

PARIS, April 10.—The full text of the Anglo-French treaty is published tonight. The clause of the treaty, pledges the French Government to communicate to Great Britain any agreement entered into between France and Spain on the subject of Morocco.

HEAPICIDE NOT A FAKE.

Unsolicited Testimonials Tell of Its Superiority.

Alf R. Kelley, residing at 218 Devisadero street, San Francisco, Cal., writes the following:

"When I first purchased Heapicide I thought, like the majority of hair preparations, it would prove a fake. I am happy to state that, on the contrary, it is all, and even more, than you claim for it. It cures a number of barbers throughout the section in which I travel have called attention to the new hair sprouting out on my scalp, and inquired of me what I have been using. I tell them Heapicide, also give them your name and address. Sold by leading druggists. Send me in stamps for sample to The Heapicide Co., Detroit, Mich."

Utah lake is rising very fast, and it looks like it will get back to its old point before the spring freshets are past, says the Lehi Banner.

Boys under 18 are not to be allowed to enter billiard halls or bowling alleys at Springville.

Otto Hudson of Lehi is to open up a limestone quarry at Blackfoot.

Miss Virginia Staker, one of Monroe's school teachers, came to Salt Lake to be married. She will return Mrs. Choward. Her husband goes to New Zealand on a mission, while Mrs. Choward will return to Monroe to finish her school term.

The baby girl of Mr. and Mrs. Adolf Nielsen of Richmond died in a horrible way. The mother, Mrs. Nielsen, who was in the city, learned of the death of her child and came to the city to see the body. It had choked to death.

There was a smallpox scare at the Agricultural college on Thursday owing to the breaking out of pustules on a student named White, but as it is the only case and prompt precautions were taken to prevent its spread there is little cause for alarm.

## APOSTLE LYMAN TALKS PATRIOTISM

Passionately patriotic at times was the address delivered in the Tabernacle yesterday afternoon by Francis M. Lyman, president of the quorum of apostles. Having recently returned after three years' service in the European mission he is in a frame of mind to appreciate the meaning of the word "home," hence he gave expression to the enthusiasm awakened by the sight of his own country and his own flag.

He enjoined obedience to the laws of the Lord and the laws of the land, and said the Mormons are attached to the United States because it has established religious and personal liberty. "Our lot in this nation," he said, "is a good one. It is a frame of mind to appreciate the meaning of the word 'home,' hence he gave expression to the enthusiasm awakened by the sight of his own country and his own flag."

The Mormons, the speaker said, are a desirable element because they make conscientious, good and faithful citizens. They are considered a desirable element in Mexico and Canada and in the States and Territories where they have established colonies. He urged his hearers to defend the liberties of all men, not to trespass on the rights of others, and to be just in their dealings. Disregard of the rights of others, he said, would not be tolerated by the Lord for a moment.

Arnold G. Schuchert, of the presidency of Liberty state took the familiar story of the birth of Joseph Smith when a boy of 15, and preached strictly along doctrinal lines. The music rendered by the choir and choir was as pleasing as usual, and there was a large attendance of strangers.

Lyman and Donovan, the two Ohio youths, made their debut yesterday. Both fairly good, but neither was in shape to do much work, having spent the past five days on a railroad train. Donovan made a good impression with the fans and has the action of a finished ball player. Flynn appeared to be nervous, but at that time he was in the midst of the hot ones that came his way.

Big Jimmy Flynn, the spectators to keep yesterday by the way he awaited the horsehide occasionally. The elongated pitcher lined out some that were good to see, and the last time he came to the bat knocked the ball clear over the left field fence, the first time the trick has been done this year.

Wilges recently made the assertion that he is going to bat 30 or better this year, and he surely will if he keeps up the trick he started yesterday.

"Father Glim" is feeling much elated over his new man, Kellackey. Flynn, the Ohio infielder, knew Kellackey in the East and says he is a wonder. The new man is an emergency player, who will be used here as a change catcher for Hansen. Reports say that Kellackey will be the general advertising and press agent for the Salt Lake team, and will be in the line of advertising to make this the banner season of the Salt Palace.

"Slats" Davis, who arrived on the initial sack yesterday as no one else but "Slats" can. He glommed the liners that came his way seemingly with no effort, and kept the fans in good humor by his constant stream of "jollies."

Swing and Track at Salt Palace.

Work is being rapidly pushed at the Salt Palace to complete arrangements for the grand opening of this popular resort on Decoration day. One of the most interesting and entertaining novelties to be added to this resort this season is the circus, which has attracted so much attention in Eastern cities the past few seasons. The bicycle track has undergone many needed repairs and better racing is promised than ever before. The dancing hall has been remodeled and repainted and will be open to the public May 1st. C. A. Nichols will be the general advertising and press agent for the Salt Lake team, and will be in the line of advertising to make this the banner season of the Salt Palace.

## LARGE CROWD SEES BASEBALL PRACTICE

Fine Weather Tempts Fans and Many Go to Walker's to Watch Ball Players Work Out.

Several hundred fans journeyed down to Walker's baseball garden yesterday afternoon and spent a pleasant hour or so watching the antics of the members of the Elder squad. A game was scheduled between the Saints and a team from Fort Douglas, but the Post ball tossers did not arrive until the Salt Lake team and most of the spectators had left the grounds. There was a full attendance of the league players, however, and those who attended were well paid for the trouble.

The diamond was freshly rolled, and although the ground was a trifle sticky it was in better shape than was expected. The players spent more than an hour in batting, fielding and running bases. Among the ball players who reported for duty at the park yesterday afternoon were Wiggs, Quick, Ezerick, Davis, Bruyette, Glim, Hansen, Flynn and Donovan, besides Cook, O'Brien and others who do not belong to the club. The men lined around the bases and in the field, and Quick took turns in the box. The pitchers did not exert themselves, and the batters had an enjoyable time. Everybody at least got one good hit and the fielders had plenty to do.

When the ball tossers had practiced long enough they took a jog around the park and quit. Most of the spectators expressed themselves as being well pleased with the work of the players, and all agreed that Salt Lake is going to have the best ball team in her history this year.

Flynn and Donovan, the two Ohio youths, made their debut yesterday. Both fairly good, but neither was in shape to do much work, having spent the past five days on a railroad train. Donovan made a good impression with the fans and has the action of a finished ball player. Flynn appeared to be nervous, but at that time he was in the midst of the hot ones that came his way.

Big Jimmy Flynn, the spectators to keep yesterday by the way he awaited the horsehide occasionally. The elongated pitcher lined out some that were good to see, and the last time he came to the bat knocked the ball clear over the left field fence, the first time the trick has been done this year.

Nichols will be the general advertising and press agent for the Salt Lake team, and will be in the line of advertising to make this the banner season of the Salt Palace.

Swing and Track at Salt Palace.

Work is being rapidly pushed at the Salt Palace to complete arrangements for the grand opening of this popular resort on Decoration day. One of the most interesting and entertaining novelties to be added to this resort this season is the circus, which has attracted so much attention in Eastern cities the past few seasons. The bicycle track has undergone many needed repairs and better racing is promised than ever before. The dancing hall has been remodeled and repainted and will be open to the public May 1st. C. A. Nichols will be the general advertising and press agent for the Salt Lake team, and will be
